**Summary report of the
Local Safeguarding Network Practitioner Forums
2016 - 2018**

Introduction

As part of the amendments to the substructures of the South East Wales Safeguarding Board and Gwent Wide Adult Safeguarding Board, Local Safeguarding Networks (LSN) were created to provide a platform for joint children and adult safeguarding themes to be discussed at a local level. It was also recognised that the LSNs would be an ideal place to share the work of the work undertaken by the regional Violence Against Women Domestic Abuse and Sexual Violence (VAWDASV) Board. Therefore, it was agreed the LSNs, chaired by the Local Authority Safeguarding Service Managers in each locality, would provide the opportunity for the discussion and dissemination of regional information from the safeguarding boards and the VAWDASV Board. The model for this multiagency collaboration and information sharing was set out in the following way:

- Each locality within the region to hold 2 LSN meetings, 3 months apart, to involve managers with the responsibility for safeguarding, from a range of organisations within the respective locality
- A LSN Practitioner Forum in each of the localities within the region to be held 2 months following the second LSN meeting that will be targeted to a frontline practitioner level.
- The series of meetings and forums would be repeated a second time resulting in 20 LSN meetings and 10 LSN Practitioner Forums being held in one calendar year.

Progress to date

Through the support of the five LSN Chairs and LSN members, the Gwent Safeguarding Business Unit has coordinated and facilitated the LSN model for 2 years holding a total of 40 LSN meetings involving managers and 20 LSN Practitioner Forums involving just over 1500 practitioners covering over 25 presentation topics.

Evaluations

Over the 20 events held, the number of attendees completing the evaluations provided has increased by 13% to an average of 52% which has provided the LSN and their chairs with rich feedback to inform future work.

Proportion of attendees who work with children, adults or both (of those that completed the evaluations):

Questions asked at all 4 series of LSN Practitioner Forums:

- How attendees have found the events beneficial
- How the events could be improved
- Themes to be covered in the future
- Suggestions for the safeguarding websites
- Suggestions for multi-agency safeguarding training

The first 3 questions were used to improve future events and the latter 2 questions informed the work of the Engagement and Communication Group and Learning and Development Group

Consistent key messages drawn from the 20 LSN Practitioner Forums:

Practitioners found the events beneficial in the following ways:

- Having a wide variety of topical, current safeguarding themes presented by 'experts' / or experienced professionals
- Receiving updates from the Boards and regional organisations
- Having the opportunity to network and be part of discussions on a multiagency level
- Events and presentations that cut across the work of 3 Boards
- Information stands provided by local / regional organisations
- Real life case studies to illustrate the topic being presented
- Gaining an understanding from different perspectives (children / adult / single agency /multi-agency) on a wide range of safeguarding themes and topics
- Practitioner expressed that they were made aware of issues outside of their expertise
- Being able to attend any one of the 5 locality events as they have the same agenda

Improvements that could be made:

- More opportunity for networking
- More case studies
- More information stands
- Improvements to refreshments and venue (*these have been addressed locally*)

Topics for future events have been suggested:

- More of a spotlight on elder abuse
- Mental health topics: parental mental health and the effects on children, teenage self-harming behaviours, mental health issues caused by domestic abuse, loneliness and isolation, dementia and Alzheimer's disease.
- Workshop session to gain the views of practitioners / opportunity for discussions
- Safeguarding and substance misuse
- Voice of the child / Survivor experiences / case studies
- Safeguarding themes around disabilities
- Learning from Child / Adult Practice Reviews

Recommendations:

- For the Business Planning Group to consider continuing the LSN Practitioner Forums and to do so with the same format as feedback has been positive
- For the Business Planning Group to consider the proposed themes provided by practitioners from previous events as topics for future LSN Practitioner Forums
- For the Business Planning Group to consider holding Practitioner Briefings, in-between LSNPFs, as an additional method of disseminating information across the region for single topics in a concentrated learning environment.
